LANO-SYNDET

- Cleansing bar that respects the skin's natural pH (5.5-6).
- Contains mild cleansing agents that are non-irritating to the skin.

The addition of lanolin and lanolin alcohol to the syndet base ensures gentle, non-irritating cleansing. They form a biomimetic protective film that deposits on the skin and remains even after rinsing. After using the syndet, the skin is clean, protected, and stays hydrated, with good maintenance of the skin barrier.

Our lanolins incorporated in this formula provide:

HYDRATION

PROTECTION

LANO-SYNDET

EXAMPLE OF USE:

Lather the bar in the palm of your hands before applying to the body or face, previously moistened. Rinse thoroughly.

INCI NAME	%	INGREDIENTS FUNCTION
PHASE 1		
PROPYLENE GLYCOL	25 - 35%	Solvent / humectant
POLYISOBUTENE	25 - 35%	Soft surfactant
GLYCERYL STEARATE	25 - 35%	Texturing agent / emulsifying
AQUA	5 - 15%	Solvent
GLYCERIN	5 - 15%	Humectant
STELLUX AIPF (NS)	3 - 6%	Emollient
LANOLIN ALCOHOL SSR EP (BHT) P	5 - 10%	Emollient / emulsifying

OPERATING METHOD:

Phase 1: Melt the ingredients at 80°C, homogenize, then pour into flexible molds (silicone).
